AT RIE COATINGS, WE’RE NOT JUST IN THE BUSINESS OF APPLYING COATINGS — WE’RE IN THE BUSINESS OF APPLYING SOLUTIONS.

RIE Coatings applies coatings for protection and performance to a variety of surfaces and substrates including carbon steel, stainless steel, zinc plating, aluminum, composites, plastics, rubber, copper, brass, and other ferrous and non-ferrous metals.

Our technical staff are committed to helping educate our customers on what coatings can offer. If you are new to coatings, we’re here to help. Tell us about your needs. Every project has unique challenges. We can help find the best solution to fit your needs.
